HOUSE OF GODS IS COMING TO *London!!!*

Following the huge success of their Glasgow branch, House of Gods is bringing their style, charm, and award-winning experiences to London (2026). It is bigger and bolder and bursting with personality!!

Located in the heart of Canary Wharf (12 Bank Street), the building's exterior is an architect feature earning the Structural Steel Design Awards 2021 (Merit). The interior is equally impressive pulling inspiration from the opulence of Versailles and the golden age of travel which was embodied by the Orient Express.

House of Gods offers 79 uniquely themed bedrooms featuring riverside balconies, four poster beds, golden bathtubs, and its famous button, where you can request butler service, bubbles or warm milk and cookies before bed.

The Sacred Garden Rooftop Bar and Restaurant is where you can wine and dine amongst the heavens. Up above the concrete jungle, we are creating a botanical paradise that feels miles away from the hustle below. Consisting of three otherworldly spaces which include our Champagne Lounge, Rose Garden & Midnight Garden. Each space has a completely different entity and collectively they become London's most sought-after venue.

The Champagne Lounge is an intimate enclave designed for whispering secrets and toasting success, we offer an extensive Canape & Bowl food menu that can be paired with our world-famous cocktails/wine selection.
